The Department of Physical Education, attached to the UP College of Education, was created in 1921 to promote, direct and supervise physical education and recreation among the students of the university. The Department of Physical Education had two sections: one for men and another for women. Since its creation in 1921, the Department of Physical Education has taken an active stance in promoting sports in the university via an intramural program. The Bachelor of Science in Education major in Physical Education was offered by the UP College of Education in 1928. The Department of Physical Education proposed a Certificate in Physical Education program which was approved by the University Council in 1930.

To maximize the growth and development of physical education and sports in the University, the proposal to create the UP Institute of Physical Education in conjunction with the Bureau of Education was approved by the Board of Regents on 05 May 1967. After revisions were made in the Bachelor of Science in Education major in Physical Education curriculum, the UP Institute of Sports, Physical Education and Recreation (ISPEAR) was established in April 1976. ISPEAR offered the following programs: Certificate in Sports, Certificate in Dance, Bachelor of Physical Education, Master of Physical Education and Master of Science in Physical Education.

A request for a change in name from Institute of Sports, Physical Education and Recreation (ISPEAR) to College of Human Kinetics (CHK) was proposed in 1989 to reflect the academic discipline on which the practice of sports, dance, aquatics, physical education and recreation is based. This discipline is a scientific, inter-disciplinary program which combines theory and practice. The Board of Regents approved the request on 28 September 1989.

### PROGRAMS OFFERED
